New-Global Corp. Again Named to *Inc.* Magazine's "Inc. 5000" List of America's Fastest Growing Private Companies – for the Second Year in a Row

NEW YORK, August 20, 2008 – *Inc.* Magazine announced today its annual list of the fastest growing private companies in America, and New-Global Corp. was named to its prestigious list for the second year running. According to *Inc.* Magazine, these leading companies are “engines for job growth” as America’s most promising and fastest growing private enterprises.

“The Inc. 5000 gives an unrivalled portrait of young, underreported companies across all industries doing fascinating things with cutting-edge business models, as well as older companies that are still showing impressive growth,” said Inc. 5000 Project Manager Jim Melloan.

Added Gregory Tapper, founder and CEO of New-Global, “Being named to the Inc. 5000 for the second year in a row really sets the bar for our organization and validates our company culture of innovation, hard work, customer service and ‘whatever-it-takes’ attitude. I am proud of our team’s standard of excellence they’ve set and continue to surpass for our customers.”

The company’s return to the Inc. 5000 list solidifies New-Global’s place in an elite category of America’s next generation of leading businesses. Over the years, *Inc.* Magazine’s annual rankings have included Starbucks Coffee, Oracle, Jamba Juice, Microsoft and more-- all of whom have appeared on the list before becoming industry powerhouses.

The official 2008 Inc. 5000 list was revealed online today at www.inc.com. The companies included in the list represent many of the most successful companies in America, with revenues of \$185 billion and median three-year growth of 147 percent.

New-Global attributes its rapid success to its dedicated team, as well as to its unsurpassed translation services and multilingual call center capabilities. Mr. Tapper commented, “New-Global offers an unsurpassed customer experience to global Fortune 1000 companies who require a single corporate vendor to manage all their translation services, as well as live multilingual communications and call center services, on a global scale through a single point of contact.”

Tapper further added, “Our Fortune 1000 clients operate in a highly competitive global business environment today, and they often can’t wait for an email response to their requests. They need access to
